

Quicklink to: [V. Plevris Courses Web Site](#)

Vagelis Plevris maintains the web site "V. Plevris Courses" at <http://courses.vplevris.com> , an effective online learning site dedicated to his teaching at the university.

The site is available only in Greek

, as it is mainly for the student needs in the Greek university. It is an online system based on the

[Moodle](#)

platform where students can enroll in the courses, download files for every course, upload their exercises, chat, send messages and lots more.

An enrollment key, given in the class, is needed in order to enroll in the various courses.

V. Plevris teaches (**academic period 2013-2014**) the following courses at the [Department of Civil Engineering Education](#) , School of Pedagogical & Technological Education ([ASPETE](#)):

A. Winter semester

Steel structures (Theory and Laboratory)
Reinforced Concrete II (Laboratory)

B. Summer semester

To be announced
